

A LINE II

TWINSTAR DIMMER

7 steps dimming, Timer, ON/OFF Button, Sunrise/Sunset Function.
It includes all functions you need for aquarium lighting.

SIMPLE AND GREAT FUNCTIONS

The dimmer has **7 levels of brightness control** and a **built-in timer** that can be set at intervals of 6 hours, 8 hours, 10 hours. There is an **On/Off button** to turn the light on and off at any time.

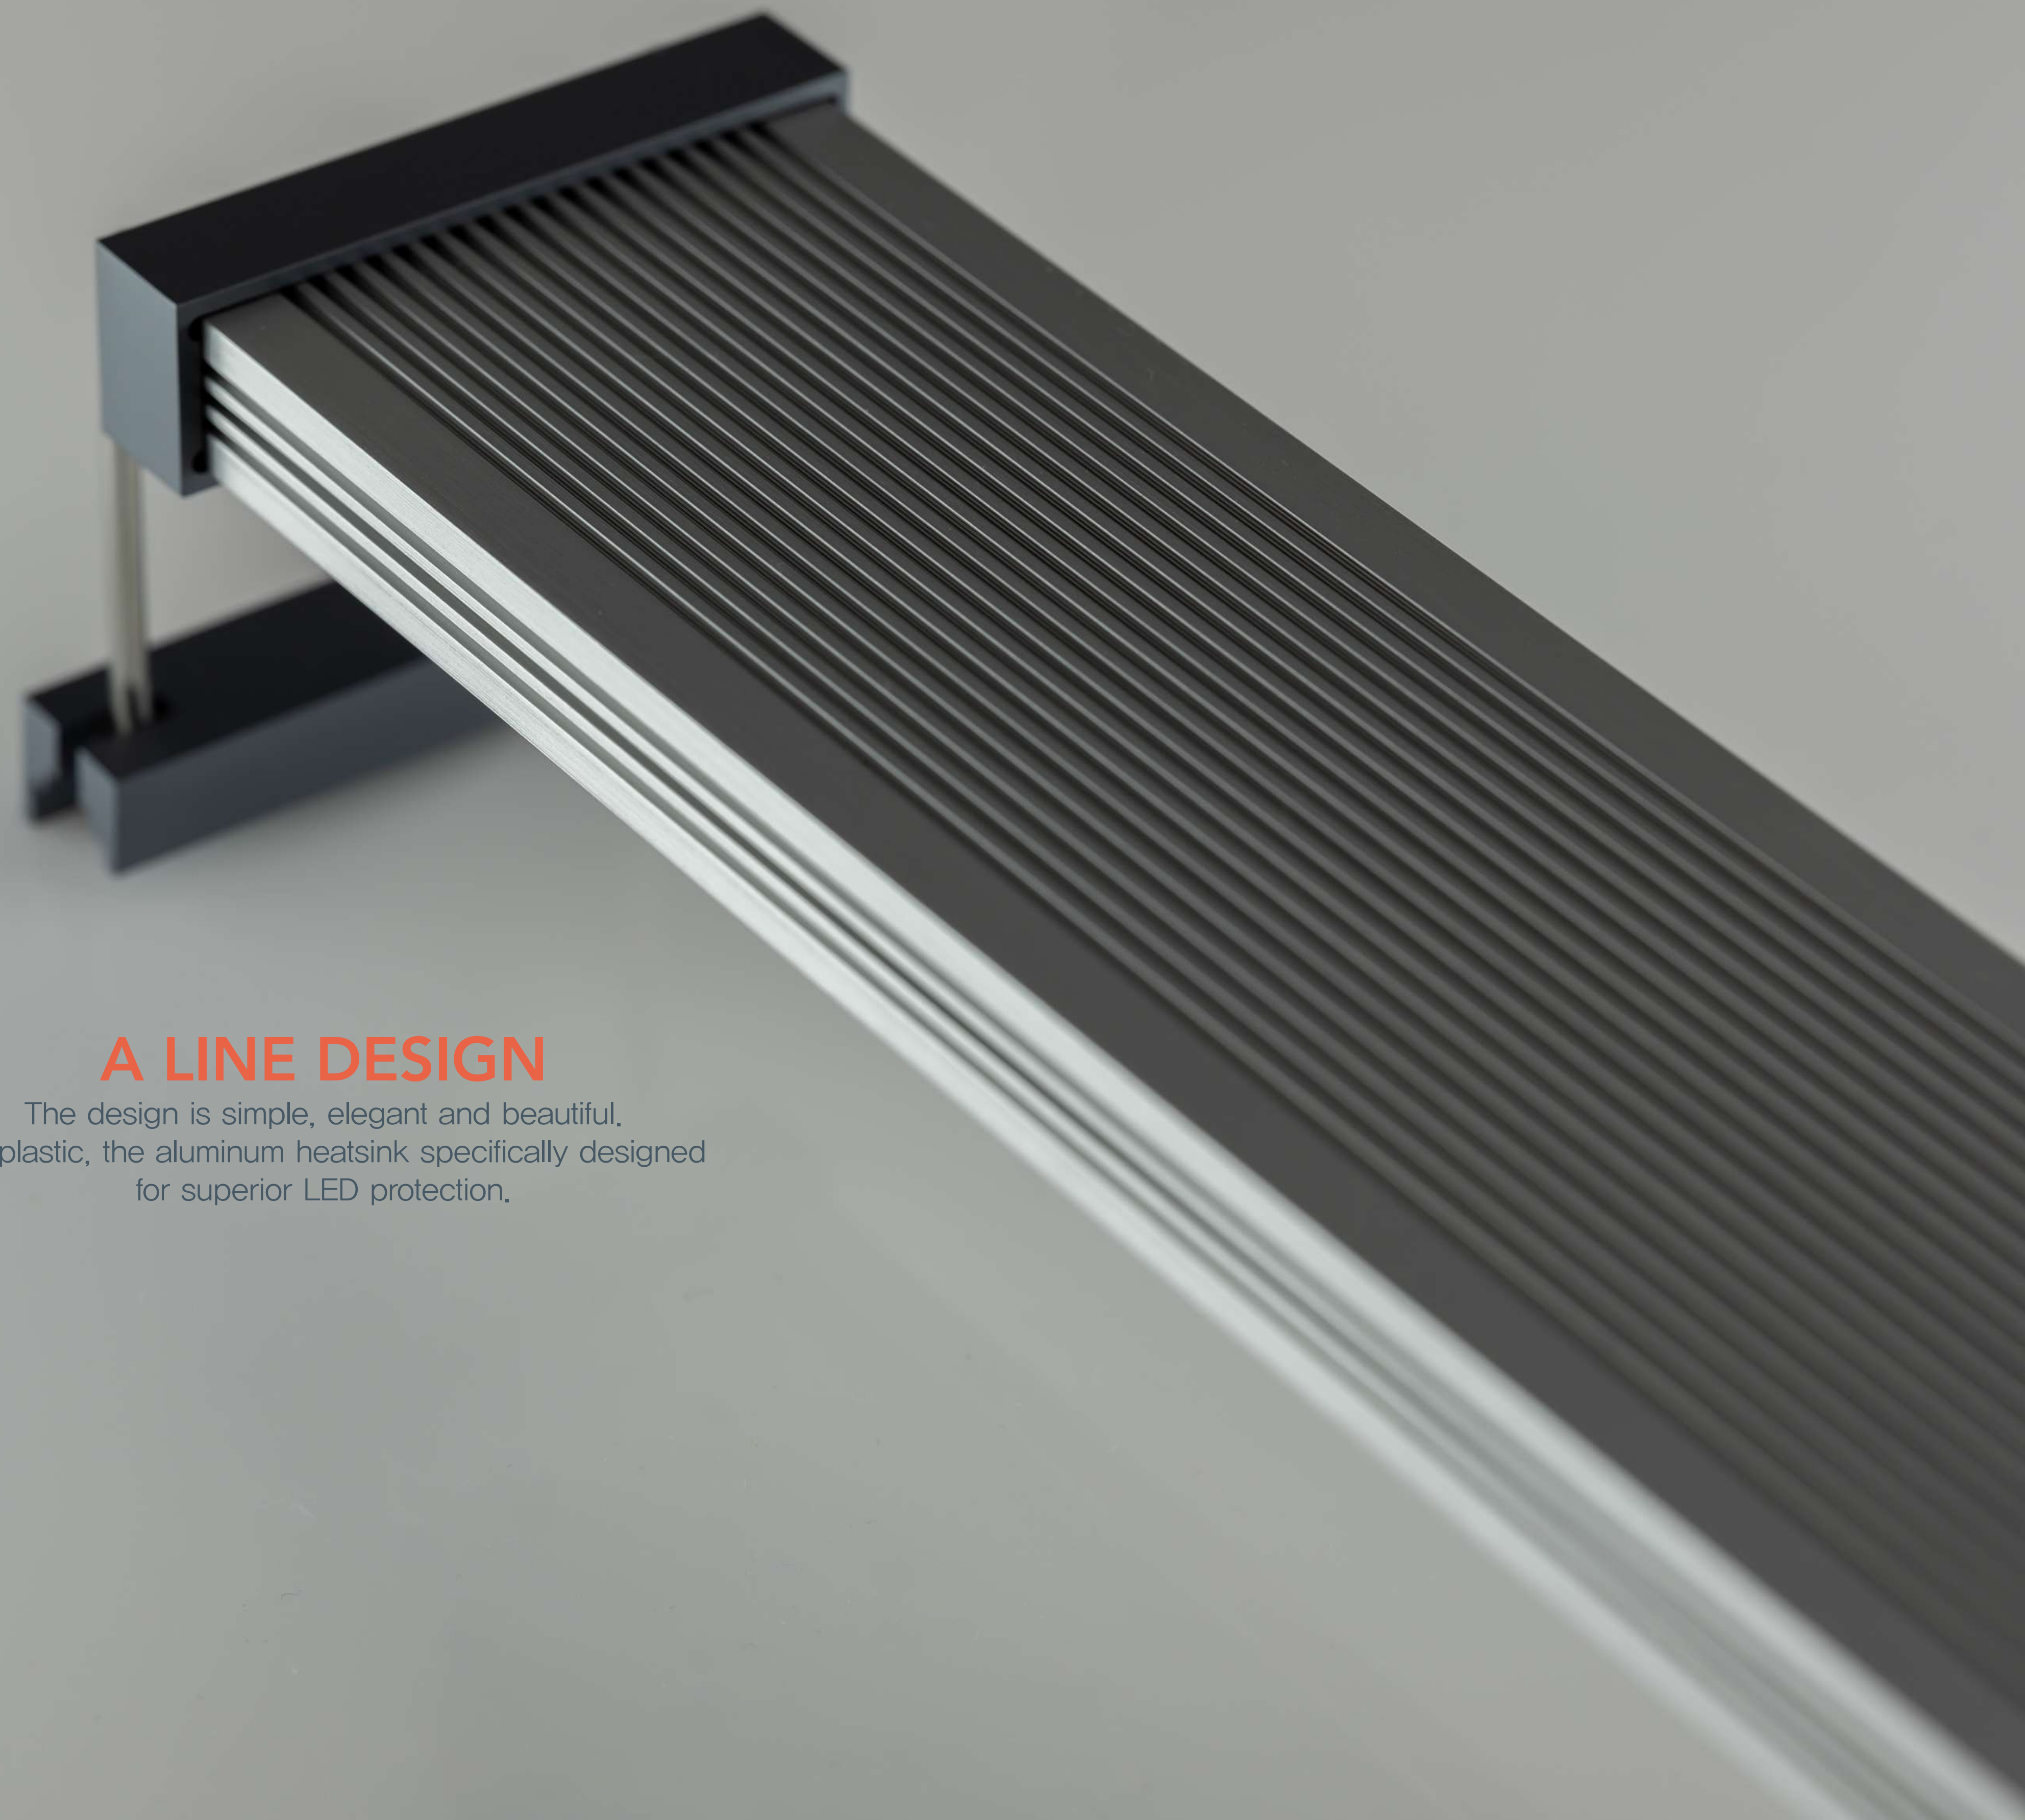

The "**Sunrise and Sunset**" function, which turns on and off slowly for 10 minutes, provides a stable habitat for the aquarium fishes.

GOOD ENOUGH BRIGHTNESS

A LINE is a full spectrum aquarium lighting RGB LED with good enough brightness compared to other lights.

A LINE DESIGN

The design is simple, elegant and beautiful.
Not plastic, the aluminum heatsink specifically designed
for superior LED protection.

TWINSTAR A LINE

Set up the lights and you will see vivid color in tropical fishes.

A LINE II SPECIFICATION

MODEL	TANK SIZE (cm)	GLASS THICKNESS (mm)	NUMBER OF LED		POWER CONSUMPTION (W)	BRIGHTNESS (lm)
			WHITE	RGB LED
